

JANVIER 2020

You want to act ... what to do ?

Réunion syndicale

You have the right to a monthly meeting on your working time. It's the moment to take it! You must ask it in writing to the head of establishment.

Vœu au conseil d'administration

Of course, this is not a miracle solution, but it makes visible the discontent. [The wish is better than a motion](#), because it is voted, and for future actions it can be used as an argument.

Refus de vote or vote against?

The CA is consulted on the suppressions/creations of posts and on the distribution of the DHG. We do not vote the total amount of the envelope but the way it is distributed. Voting against the distribution is useful in case of alternative proposal. To contest the amount of the DHG, you need another mobilization.

Support from parents

It is well known that parents are also voters... Turn your wish into a petition letter to their signature and return it to the academic inspection, the rectorate, the prefecture, the deputies... Do not hesitate to **ask for an audience** with the rector or the DASEN and to foresee a delegation with the parents.

Protest, communicate

You can also protest, put up banners in front of your establishment and above all make a press release (or better: hire a journalist).

Strike

It is mandatory to give notice of strike, mandatory. The notice covers the members but also those of other unions and non-unionized.

ACTIONS DHG : CONTACT YOUR UNION !

Do not forget to keep your union informed: it can help you at all stages of your actions
